Active Mindz Nursery is a nursery that exemplifies high standards of teaching practice and focuses on the holistic development of children. The children interact with one another in a safe and secure environment and daily plans ensure that the individual, academic, social, emotional and cognitive needs of children are met.

## AMN REOPENS

After almost a year of standing by and weeks of rigorous preparation, AMN has finally geared up to resume operations this year. To ensure the safety and wellbeing of our children amid the challenges of the COVID-19 pandemic, our team has implemented safety measures to protect staff and children. Protective bubble groups of up to 8 children and 2 staff have been set in effect to ensure safety whilst emergency protocols have been established in case of a positive COVID-19 case

in the nursery. Getting young children back into nurseries at a young age is seen as crucial to their development, and parents can be rest assured, all measures have been taken to ensure they return to a safe environment. In AMN, we understand the importance of sending your child for the betterment of their development into the early years settings, be certain that we are implementing a proven method of protecting children and allowing them to create bonds with their peers and teachers again.

## AMN CELEBRATES VALENTINE'S DAY

On 14th February, AMN was filled with love and hearts as we celebrated Valentine's day! The kids were introduced to this special occasion, they exchanged greetings and creatively made their Valentine's crafts with love and danced along to sweet and happy music.

Valentine's Day is not just about couples celebrating romance, it is a wonderful time to teach our children about the meaning of love, be it for family members, friends, or pets. They should explore and share their feelings about what it means to be loved, and what it means to love and care for others. It is also a great opportunity to get them to tap into their independence and understand the concept of self-love.

## CELEBRATING UAE'S SUCCESSFUL HOPE PROBE MISSION TO MARS

On 15th February, AMN celebrates with the nation as Hope Probe successfully started orbiting Mars, marking the 50th anniversary of the United Arab Emirates. UAE has become the first Arab nation to deploy an interplanetary probe and the 5th country to reach Mars. In celebration of this historical achievement, our students had a paper-sticking activity of the Hope Probe orbiting around the planet Mars.

## LEARNING ABOUT HEALTHY HABITS

All throughout this month, our kids learned about healthy habits from our in-house nurse, Ms. Laila. Here at Active Mindz Nursery, we encourage kids to incorporate healthy habits into their everyday lives which will help set them in a healthy lifestyle for life.
